

Rediscovering Kythera's Ancient Capital

Highlights from archaeological excavations in Kythera, July 2010

A talk explaining how members of the Kytherian-Australian community helped to organise a team who supported archaeological digs on Kythera during July, 2010. Sections of the mostly forgotten 2400+ year-old ancient capital were found at Palaeokastro, helping discover a new chapter of ancient history. Hear how the team found walls, columns, coins, thousands of roof tile fragments, ancient ceramics and dozens of other different kinds of artefacts. Key finds and an explanation of how the same community backed concept could be implemented in other parts of Greece will be presented.

Where: Sydney University, New Law School Lecture Theatre 101

When: Wednesday, November 10th, 7pm for a 7.30pm start

How Much: Free. Light refreshments will be served. **RSVP by Nov 1st is essential.** Please call Kathy Samios on 9349 1849 or email john.fardoulis@gmail.com to secure your place.

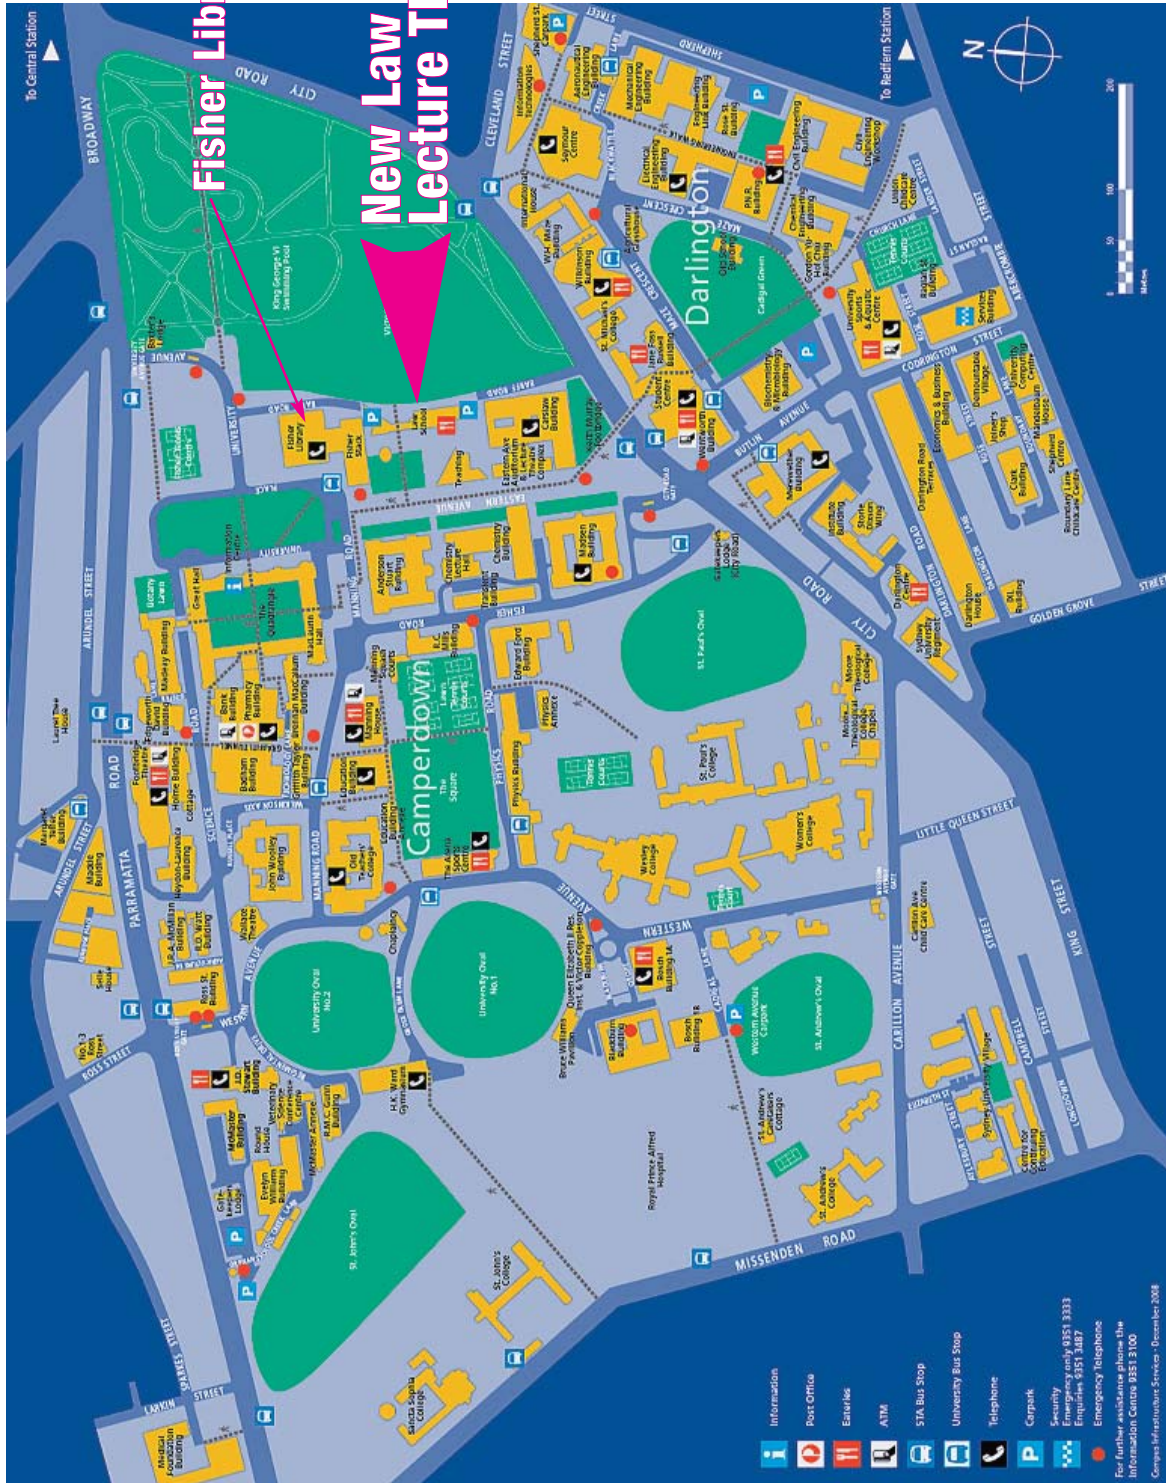

This project was made possible by the gracious support of the Nicholas Anthony Aroney Trust and Kytherian Association of Australia.
